

~~SECRET~~

3 July 1963

MEMORANDUM FOR: General Carter

SUBJECT : Dr. Kinzel and RDRB

25X1

1. Dr. Kinzel had a productive day here, spending his time with the DD/R--mostly with [redacted] Chief, R&D Division. He fully understood your situation.

2. He will be down again on Tuesday, 9 July, and will spend more time with the DD/R. He hopes to see you if your schedule permits. *I must see him.*

3. He does not wish to use his time in Washington reading papers, so I've arranged with Security to get papers to him in New York. We're sending up to him:

"NPIC Technical Development Program"
(Attached is a copy for you.)

"TSD Seminar and Its 1964 R&D Program"
(You requested that Dr. Kinzel see this.)

Dr. Tietjen's Study on Bio-Medical Electronic Techniques and System

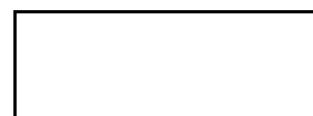

4. Re the next RDRB meeting:

a. Do you wish it on 11 July (Thursday) or 12 July (Friday)? At 1400 or 1500, or other time?

b. Do you wish a "presentation," or do you wish to use the hour to catch up on loose ends? *I can get together an agenda for you to o. k.*

c. Do you wish Dr. Kinzel to be present?

if available and convenient
